WORK EXPERIENCE

Freelancer, IT Services and Solutions
Freelance at www.fiasconaro.info [8 May 2023 – Current]

City: Rome
Country: Italy

Specialist in creating customized software solutions for companies in the IT sector.
I specialize in developing software, particularly focusing on Robotic Process Automation (RPA).
I create content classification systems, predictive systems, and statistical systems (for Data Science).
I perform data analysis activities as a Data Analyst and professionally use Business Intelligence software.
I integrate systems and solutions I create with legacy and standard systems.
Expert in extracting structured data sometimes converted from unstructured or semi-structured data sources into various file formats (pdf, docx, others).
I utilize natural language processing (NLP) algorithms, machine learning, and deep learning.

My current freelance positions are:
- Cybersecurity Risk Analyst at an important telecommunications company/group in Italy.
- Lead Developer Frontend and Backend for various companies/clients in Europe.
- Freelance RPA Developer on www.rpadeveloper.net for various companies/clients in Europe.
- Business Manager at CloudRealTime.
- Offering Microservices on proprietary platforms in the Cloud, custom development of Docker Image making Docker Container, and scalable instances for software automation processes.

Project Manager & Full Stack Developer
BWOW Solution S.R.L. [20 Mar 2023 – 6 May 2023]

City: Rome
Country: Italy

I have developed software that specializes in parsing PDF files of Italian tax forms known as "Modelli Unici". I also create software for parsing Cribis/Crif model PDF files and for downloading State Aid files. Additionally, I develop an intelligent Chatbot engine software that uses Machine Learning and Artificial Intelligence algorithms. This software interprets user input and performs actions to generate complex reports and process requests for banking ratings and related services.

Project Manager, RPA Senior Manager, IT Consultant, RPA Developer and Sr. Software architect
SIAED S.P.A. [3 Nov 2020]

City: Rome
Country: Italy

I am the technical manager, Team Leader and project manager in RPA (Robotic Process Automation), with the role of "head of software development and automation". Mainly I'm also a senior software developer with the responsibility of designing the software solutions architectures. I like to develop in Python and many other programming languages I use for the interaction through the applications like as web based application I use PHP

Language, creation of interconnections between systems and software (Custom REST API and OAS 3.0), I also Know How to make projects and software development for Robotic Process Automation (Blue Prism, Automation Anyware, UiPath, Automate HelpSystem, Python Automation).
I like to make Integration also with third party software using API of and / or SOAP, Structural development and database administration on MYSQL, MS-SQL, SQLite environments; I make custom and Ad-Hoc development with using various programming languages by using integration of standard and non-standard libraries and application integration APIs for RPA software (e.g. OCR libraries, Tesseract), Computer Vision with OpenCV by using of tools for Intelligent Automation and content categorization to develop automation processes on a statistical / decision basis with additional usage of libraries for Natural Language Processing (NLP) and NLTK as well as development of Engine for the text content classification and Machine Learning.

RPA Project Manager
ACCENTURE S.P.A. [13 Mar 2019 – 13 Nov 2019]
